16600 E Phillips Ln.
80112 ENGLEWOOD, CO

SKILLS

Trilingual: Turkish, German, and English

· Catia V5

· AutoCAD

· MATLAB

· **CODING SKILLS**

· Visual Studio C#, Visual Basic C, HTML5, CSS3, JavaScript, jQuery, Express.js, React.js, Node.js, progressive web apps, agile methodology, computer science, database theory, MongoDB, MySQL, Git…

SUMMARY

I have lived in Colorado since 2014. In 2016, I went to Germany to get university education. After taking a German course, I started university and finished it in 2022. I did my final thesis on renewable energy resources in Colorado. In 2019, I worked with a team of engineers on a passenger train. As the engineering team, we fixed brakes and updated the interior design of the passenger train. In October of 2022, I started the University of Denver's Full Stack Coding Bootcamp program to further develop my programming skills that I learned during my university time and to do what I enjoy. In this 3-month bootcamp program, I developed myself and prepared myself for the job I want to work in the future.

EXPERIENCE

INTERNSHIP / THING-TECHNISCHE HYGIENE INGENIEURE
08.2021 – 02.2022

Technical and hygienic inspection of HVAC systems

Studied and calculated the efficiency of thermals

Calculated the necessary airflow

Created the reports of all inspections and calculations studied

EDUCATION

FULL STACK CODING BOOTCAMP
10.2022-01.2023
UNIVERSITY OF DENVER
B. ENG IN MECHANICAL ENGINEERING
03.2016 - 07.2022
Jade Hochschule University in Wilhelmshaven, Germany
Focus: energy and environmental technology

Final thesis: Efficiency of solar and wind energy using the example of energy production in Colorado (USA) - comparison and potential analysis
